

# Welcome to Sports Quip

Sports Quip is intensively involved in the upgrading and construction of new cricket practise net facilities.

## Professional school spec steel cricket cages

Permanent steel cricket cages are available in a range of lengths, heights and bay numbers. Cricket cage nets come in all shapes and sizes. They perform an essential role in cricket training at your schools or clubs. Each requires its own solution that can then be constructed to suit specific needs and requirements. At Sports Quip we have developed various cricket cage solutions which find themselves in many schools and sports clubs.

Security fence systems to enclose and secure cricket cages in vulnerable areas can also be installed.

## High quality artificial cricket carpets for indoor and outdoor cricket nets

Fibregrass and Dura Turf are used for many outdoor and indoor cricket facilities and having a suitable cricket surface

Before

After

solution is critical in not only providing optimum daily performance but also allowing for the optimum level of use annually.

Choosing the right artificial cricket carpet is straightforward, so one quick call to us will point you in the right direction. Indoor cricket carpeting can also be used as roll down outdoors.

For schools, sport clubs and educational centers we construct the complete cricket cage solution from the ground up.

Sports Quip also manufactures sports equipment and is a supplier of all sports equipment and clothing. ●
